CAREER OBJECTIVE

Seeking a challenging software engineering position where I can utilize my strong foundation in front-end development to deliver high-quality software solutions and contribute to the success of the team, while also working towards my goal of becoming a full-stack software engineer.

EXPERIENCES

Software Engineer - Selise Digital Platforms • Feb, 2022 - present

- Contributed to three distinct enterprise projects to develop new features and bug fixing as a front-end developer.
- Worked on a content management system(CMS) in front-end development.
- Implementing new features and modules as per the requirement using HTML, CSS, Angular & TypeScript.
- Implementing API integration and CRUD operations from the front-end side.
- Maintaining PR review, coding standardization, rules and regulations set by the organization.
- Collaborating with cross-functional teams in a fast-paced, deadline-driven environment.
- Working on an Agile methodology.

Problem Setter & Judge - Toph, CodeMarshal

- Authored 10+ standard programming contest problems.
- Worked in the judging panel in 5+ programming contests.

Trainer & Mentor - DIU Computer and Programming Club

- Conducted 30+ Algorithm & Data Structure classes and mentored several individuals.
- Worked as a trainer in several semester-long training camps.

EDUCATION

B.Sc in Computer Science & Engineering

Daffodil International University

Dhaka, Bangladesh • 2017-2021

CGPA: 3.58 out of 4.00

Course-Work: Object Oriented Programming, Operating Systems, Database Management, Web Engineering etc.

PERSONAL PROJECTS

EwoPharma - Selise Digital Platforms • March, 2023 - present

- Implemented Leave Management, Idea Capture module for Human Resource department.
- Contributed to the performance manager module for employees.
- Implemented two reporting sub-module for pharmaceutical material management.

SV Omega - Selise Digital Platforms • Aug, 2022 - March, 2023

- Contributed to complex responsive microsite creation for the restaurant and set the role management.
- Implemented user management module for different users.

SKILLS

Languages

- C/C++
- C#

Web Development

- HTML, CSS
- JavaScript
- TypeScript
- Angular
- React.js

Databases

- MongoDB
- MySQL

Miscellaneous

- GraphQL, Git
- Linux, Windows
- Leadership

COMPETITIVE PROGRAMMING

I've solved more than 1800 problems from different online judges.

- Codeforces (607) • [Link](#)
- LeetCode (500) • [Link](#)
- UVa (284) • [Link](#)
- LightOJ (80) • [Link](#)
- SPOJ (30) • [Link](#)
- Beecrowd (259) • [Link](#)

Individual Contest

DIU Take-off Programming Contest, 2018

Champion • Individual

DIU Intra University Programming Contest, 2019 4th • Individual

Team Contest

ICPC Dhaka Regional, 2018

Honorable Mention •
DIU_Recovery

ICPC Dhaka Regional, 2019

Honorable Mention •
DIU_Recovery

ICPC Dhaka Regional, 2020

Honorable Mention •
DIU_Thunders
