CAREER OBJECTIVE

Seeking a challenging software engineering position where I can utilize my strong foundation in front-end development to deliver high-quality software solutions and contribute to the success of the team, while also working towards my goal of becoming a full-stack engineer.

EXPERIENCES

Software Engineer - Selise Digital Platforms • Feb, 2022 - Present

- Contributed to three distinct enterprise projects to develop some new features as a front-end developer.
- Worked on a content management system(CMS) in front-end development.
- Implementing new features and modules as per the requirement using HTML, CSS & Angular.
- Implementing API integration and CRUD operations from the front-end side.
- Maintaining PR review, coding standardization, rules and regulations set by the organization.
- Collaborating with cross-functional teams in a fast-paced, deadline-driven environment.
- Working on an Agile methodology.

Problem Setter & Judge – Toph, CodeMarshal

- Authored 10+ standard programming contest problems.
- Worked in the judging panel in 5+ programming contests.

Trainer & Mentor – DIU Computer and Programming Club

- Conducted 30+ Algorithm & Data Structure classes and mentored several individuals.
- Worked as a trainer in several semester-long training camps.

EDUCATION

B.Sc in Computer Science & Engineering

Daffodil International University

Dhaka, Bangladesh • 2017-2021

CGPA: 3.58 out of 4.00

Course-Work: Object Oriented Programming, Operating Systems, Database Management, Web Engineering etc.

PERSONAL PROJECTS

FireEye | Repository

- It is a web based system to detect fire using the monitoring camera and sending live notification to respective concerns.
- **Technology :** Python, Django, PostgreSQL.

Social Blog Project

- A web based project where people can read, add, modify and delete their own blog.
- Anyone who wants to create a new blog has to sign-up and login. The admin panel can have all the access.
- **Technology :** Python, Django, PostgreSQL.

SKILLS

Languages
- C/C++
- Python

Web Development
- HTML, CSS
- JavaScript
- TypeScript
- Angular

Databases
- MongoDB
- MySQL

Miscellaneous
- GraphQL, Git
- Linux, Windows
- Leadership

COMPETITIVE PROGRAMMING

I've solved more than **1800** problems from different online judges.

- Codeforces (**607**) • Link
- LeetCode (**450**) • Link
- UVa (**284**) •Link
- LightOJ (**80**) •Link
- SPOJ (**30**) •Link
- Beecrowd (**259**) •Link

Individual Contest

DIU Take-off Programming Contest, 2018

Champion • Individual

DIU Intra University Programming Contest, 2019
4th • Individual

Team Contest

ICPC Dhaka Regional, 2018

Honorable Mention • DIU_Recovery

ICPC Dhaka Regional, 2019

Honorable Mention • DIU_Recovery

ICPC Dhaka Regional, 2020

Honorable Mention • DIU_Thunders
